Getting Started

HOW TO INSTALL STEP BY STEP

To install the game please follow the following steps:

1. Start your computer
2. Place the CD-ROM/DVD-ROM media into your relevant drive. The Auto run feature of your PC should launch the installation wizard automatically
3. If the Auto run feature is disabled, double click your My Computer Icon and then double click the CD-ROM/DVD-ROM icon
4. Follow installation instructions on your screen
5. To start the game double click the icon created on your desktop

The game is only supported on Windows 10. It can run on both the 32-bit and 64-bit windows versions. The game might run on an older windows version but with limited support.

If you have received the download version, follow the previous installation steps.

REGISTRATION

After purchasing the full version, and when you launch the game for the first time, a hardware ID code appears on your screen. You may send this code using the e-mail used during the purchase operation by

clicking the “send license e-mail request” button or when sending manually using this e-mail. A registration code will be sent to you by mail. Usually, it takes less than 24 hours to send the code. (Figure 1 – Registration Screen)

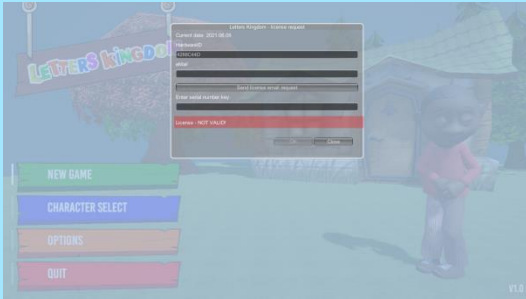

Figure 1 - Registration Screen

Now the next step is to enter this information received by mail in the registration form before launching the game for the first time.

The red background message will turn on to a green message when you enter the correct code.

Now, click OK to launch the game.

You may request a demo license valid for specific days.

Order your copy securely today from www.letterskingdom.com website.

In case you face any trouble while registering your game please contact the sales@letterskingdom.com or use the contact form on the website.

RUNNING THE GAME

To start the game, click on windows Start button → All Programs → Letters Kingdom → Letters Kingdom icon (Figure 2 – Game Icon). Wait a few seconds until the game loads. You can also click on the desktop icon if created during the installation

About the Game

Letters Kingdom is an edutainment game. Your kid(s) will learn the complete English alphabet as well as numbers and basic colors. Also, it is a great chance to let your kid have the sense of dealing with PC and its peripherals. (e.g., the Keyboard and Mouse)

It is a game for the whole family. You can play with your Kid solve riddles and achieve tasks. Older brothers and sisters can play with their younger brothers and sisters too.

Pay attention to every detail in the environment around you. Notice buildings, characters, items carefully.

THE STORY LINE

Letters Kingdom is an attractive 3d fantasy educational game. You play as little boy searching for the alphabetic letters from A to Z. There are

two additional levels inside level 3 and level 4. You will learn digits from 1 to 10. Also, you will learn basic colors. Finally, when you succeed to get all the complete alphabet set of letters you will get a very beautiful alphabetic song. We always listen for enhancements. We've listened to all your proposal for enhancing the game's older versions.

THE CHARACTERS

PLAYERS

There is a set of both playable characters as well as non-playable characters in this game.

There is a set of 40 different playable boy and girls from all over the world. Boys and Girls. Select your favorite one. Characters are from all over the world. Please note that you can't change the character during a game. You will have to start a new game.

FOR PARENTS: PURPOSE OF THE GAME

As a father of two children, I have come to the realization that learning is not like it was when I was in school. Memorizing through books grow

boring and tiresome for the young ones of this generation. I discovered a tool, or better yet a miracle to get my boys to sit in one place to study, but more importantly to learn. I no longer was hearing "Dad can I go play video games ", " I can finish my homework later", or my favorite " The test is going to be easy I don't have to study that long ". I accomplished such task by breaching the barrier of past generation ways to present ones by TECHNOLOGY. Kids today are obsessed with technology and instead of fighting it; I decided to embrace it by creating Letters Kingdom.

I would like to thank you for purchasing the game and supporting us in advance. This will certainly help us to produce much more attractive educational games in addition to enhancing this game.

Videos

PLAYING VIDEOS

The video pack is a free add-on for this game. You will get a download link for the whole alphabet letter.

Before running these videos, make sure that you have the latest video codecs installed on your PC. This will let the video play without any problems. If you're stuck, please refer to the troubleshooting section.

Each video will play with two words example showing how to write the letter at the beginning of the word as well as in the middle of the word. When pressing the <Enter> button, this will end up the video session whether if you've finished playing it or in the middle of video play.

INTRODUCTION VIDEO

This is the startup video before the game main menu shows up.

A quick story, the Hero of this game was studying in his room. He started to dream about the Letters and then he slept and has fallen down into the game environment.

The video can be skipped by pressing Escape or Enter or Left Mouse Click. The introduction video length is about 1 minute 7 seconds.

WINNING VIDEO

In the final level, you will complete your mission when you will find the whole alphabetic letters in the language. After finding all letters, your objective is to find a way to get out from the Castle. When you'll succeed, a video with the A B C song will play as a reward for your efforts.
